HEALTH AND SAFETY INFORMATION

Caution with Conch - The Vibrio parahaemolyticus bacteria has been confirmed in Bahamian Conch. Guests should not eat conch or raw sea food. Contaminated food usually looks, smells and tastes normal. Ingestion of this bacteria causes diarrhea, vomiting, fever, and cramps, lasting usually 3 days. If you experience these symptoms, please visit our medical facility onboard.

Nassau, Bahamas - Please be aware that there has been an increase in crime in Nassau. For more information on how you can lower your risk of being a victim, please refer to the letter available near the Guest Services Desk on Deck 5 for more information.

Health Advisory: Working in conjunction with the United States centers for disease control and prevention, we have instituted enhanced cleaning procedures onboard all of our ships. You'll likely see some of these activities during your cruise vacation. Medical experts tell us that the best way to prevent colds, flu, and gastrointestinal illnesses is to simply wash your hands thoroughly with soap and hot water after restroom breaks and again before eating anything.

Body Camera - For the safety and well-being of all persons onboard, some members of our Security Team will be wearing Body Cameras as part of their uniform.
